Student Speak

---First 2-3 days whatever was taught went bouncer but slowly and steadily with the **encouragement of faculty members**.....we settled down.

---Faculty members were more confident than us regarding our performance. They were confident that we can do it and **yes we have done it**.....

We used to study till 4 AM in the morningand then used to get our doubts cleared from faculty members ...**they were never tired clearing our doubts.**

Campus had lots of honey bees..... and we got Honey **Honey of Knowledge**.... which would be with us for our whole life....

Thanks to you Sir for your patience and understanding. During a 13 day DEPOSIT, you have paid us a tremendous rate of INTEREST, COMPOUNDED DAILY, and our MATURITY VALUE has reached new heights. SURPLUS of knowledge will now be invested in HSBC fund and we hope to show very high ALPHA and earn rich DIVIDENDS. We shall always remember both our **FUND MANAGERS** who INVESTED their time and efforts in us
